

## Operational Services

### Revenue and Investments

The Superintendent or designee is responsible for making all claims for property tax revenue, State Aid, special State funds for specific programs, federal funds, and categorical grants.

### Investments

The Superintendent shall either appoint a Chief Investment Officer or serve as one. The Chief Investment Officer shall invest money that is not required for current operations, in accordance with this policy and State law.

The Chief Investment Officer and Superintendent shall use the standard of prudence when making investment decisions. They shall use the judgment and care, under circumstances then prevailing, that persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the safety of their capital as well as its probable income.

### Investment Objectives

The objectives for the School District's investment activities are:

1. Safety of Principal - Every investment is made with safety as the primary and overriding concern. Each investment transaction shall ensure that capital loss, whether from credit or market risk, is avoided.
2. Liquidity - The investment portfolio shall provide sufficient liquidity to pay District obligations as they become due. In this regard, the maturity and marketability of investments shall be considered.
3. Rate of Return - The highest return on investments is sought, consistent with the preservation of principal and prudent investment principles.
4. Diversification. The investment portfolio is diversified as to materials and investments, as appropriate to the nature, purpose, and amount of the fund.

### Authorized Investments

The Chief Investment Officer may invest any District funds:

1. Bonds, notes, certificates of indebtedness, treasury bills or other securities now or hereafter issued, which are guaranteed by the full faith and credit of the United States of America as to principal and interest;

2. Bonds, notes, debentures, or other similar obligations of the United States of America or its agencies;  
The term “agencies of the United States of America” includes: (a) the federal land banks, federal intermediate credit banks, banks for cooperative, federal farm credit banks, or any other entity authorized to issue debt obligations under the Farm Credit Act of 1971 and Acts amendatory thereto; (b) the federal home loan banks and the federal home loan mortgage corporation, and (c) any other agency created by Act of Congress.
3. Interest-bearing savings accounts, interest-bearing certificates of deposit or interest-bearing time deposits or any other investments constituting direct obligations of any bank as defined by the Illinois Banking Act;
4. Obligations of corporations organized in the United States with assets exceeding \$500,000,000 if (a) such obligations are rated at the time of purchase at one of the three highest classifications established by at least two standard rating services and which mature not later than three years from the date of purchase, (b) such purchases do not exceed 10% of the corporation’s outstanding obligations, and (c) no more than one-third of the District’s funds may be invested in short term obligations of corporations;
5. Money market mutual funds registered under the Investment Company Act of 1940, provided that the portfolio of any such money market mutual fund is limited to obligations described in paragraph (1) or (2) of this subsection and to agreements to repurchase such obligations.
6. Interest-bearing bonds of any county, township, city, village, incorporated town, municipal corporation, school district, the State of Illinois, any other state, or any political subdivision or agency of the State of Illinois or any other state, whether the interest earned is taxable or tax-exempt under federal law. The bonds shall be (a) registered in the name of the municipality, county, or other governmental unit, or held under a custodial agreement at a bank, and (b) rated at the time of purchase within the four highest general classifications established by a rating service of nationally recognized expertise in rating bonds of states and their political subdivisions.
7. In short term discount obligations of the Federal National Mortgage Association or in shares or other forms of securities legally issuable by savings banks or savings and loan associations incorporated under the laws of this State or any other state or under the laws of the United States. Investments may be made only in those savings banks or savings and loan associations, the shares, or investment certificates of which are insured by the Federal Deposit Insurance Corporation. Any such securities may be purchased at the offering or market price thereof at the time of such purchase. All such securities so purchased shall mature or be redeemable on a date or dates prior to the time when, in the judgment of the Chief Investment Officer, the public funds so invested will be required for expenditure by the District or its governing authority.
8. In dividend-bearing share accounts, share certificate accounts, or class of share accounts of a credit union chartered under the laws of this State or the laws of the United States; provided, however, the principal office of any such credit union must be located within the State of Illinois. Investments may be made only in those credit unions the accounts of which are insured by applicable law.
9. In a Public Treasurers’ Investment Pool created under Section 17 of the State Treasurer Act the District may also invest any public funds in a fund managed, operated, and administered by a bank, subsidiary of a bank, or subsidiary of a bank holding company or use the services of such an entity to hold and invest or advise regarding the investment of any public funds.
10. In the Illinois School District Liquid Asset Fund Plus.
11. In repurchase agreements of government securities having the meaning set out in the Government Securities Act of 1986 subject to the provisions of said Act and the regulations issued there under. The government securities, unless registered or inscribed in the name of the District, shall be purchased through banks or trust companies authorized to do business in the State of Illinois.  
Except for repurchase agreements of government securities which are subject to the

Government Securities Act of 1986, no District may purchase or invest in instruments which constitute repurchase agreements, and no financial institution may enter into such an agreement with or on behalf of any District unless the instrument and the transaction meet the following requirements:

- a. The securities, unless registered or inscribed in the name of the District, are purchased through banks or trust companies authorized to do business in the State of Illinois.
  - b. The Chief Investment Officer, after ascertaining which firm will give the most favorable rate of interest, directs the custodial bank to “purchase” specified securities from a designated institution. The “custodial bank” is the bank or trust company, or agency of government, which acts for the District in connection with repurchase agreements involving the investment of funds by the District. The State Treasurer may act as custodial bank for public agencies executing repurchase agreements.
  - c. A custodial bank must be a member bank of the Federal Reserve System or maintain accounts with member banks. All transfers of book-entry securities must be accomplished on a Reserve Bank’s computer records through a member bank of the Federal Reserve System. These securities must be credited to the District on the records of the custodial bank and the transaction must be confirmed in writing to the District by the custodial bank.
  - d. Trading partners shall be limited to banks or trust companies authorized to do business in the State of Illinois or to registered primary reporting dealers.
  - e. The security interest must be perfected.
  - f. The District enters into a written master repurchase agreement that outlines the basic responsibilities and liabilities of both buyer and seller.
  - g. Agreements shall be for periods of 330 days or less.
  - h. The Chief Investment Officer informs the custodial bank in writing of the maturity details of the repurchase agreement.
  - i. The custodial bank must take delivery of and maintain the securities in its custody for the account of the District and confirm the transaction in writing to the District. The custodial undertaking shall provide that the custodian takes possession of the securities exclusively for the District; that the securities are free of any claims against the trading partner; and that any claims by the custodian are subordinate to the District’s claims to rights to those securities.
  - j. The obligations purchased by the District may only be sold or presented for redemption or payment by the fiscal agent bank or trust company holding the obligations upon the written instruction of the Chief Investment Officer.
  - k. The custodial bank shall be liable to the District for any monetary loss suffered by the District due to the failure of the custodial bank to take and maintain possession of such securities.
12. In any investment as authorized by the Public Funds Investment Act, and Acts amendatory thereto, Paragraphs 11 supersedes paragraphs 1-10 and controls in the event of a conflict.

Investments may be made only in banks, savings banks, savings and loan associations, or credit unions that are insured by the Federal Deposit Insurance Corporation.

The Chief Investment Officer and Superintendent shall regularly consider material, relevant, and decision-useful sustainability factors in evaluating investment decisions, within the bounds of financial and fiduciary prudence. Such factors include, but are not limited to: (1) corporate governance and leadership factors, (2) environmental factors, (3) social capital factors, (4) human capital factors, and (5) business model and innovation factors, as provided under the Ill. Sustainable Investing Act, 30 ILCS 238.

Selection of Depositories, Investment Managers, Dealers, and Brokers

The Chief Investment Officer shall establish a list of authorized depositories, investment managers, dealers and brokers based upon the creditworthiness, reputation, minimum capital requirements, qualifications under State law, as well as a long history of dealing with public fund entities. The Chief Investment Officer will submit the list to the Board after each school board election.

In order to be an authorized depository, each institution must submit copies of the last two sworn statements of resources and liabilities or reports of examination, which the institution is required to furnish to the appropriate state or federal agency. Each institution designated as a depository shall, while acting as such depository, furnish the District with a copy of all statements of resources and liabilities or all reports of examination, which it is required to furnish to the appropriate State or federal agency.

The above eligibility requirements of a bank to receive or hold public deposits do not apply to investments in an interest-bearing savings account, interest-bearing certificate of deposit, or interest-bearing time deposit if: (1) the District initiates the investment at or through a bank located in Illinois, and (2) the invested public funds are at all times fully insured by an agency or instrumentality of the federal government.

In addition to the above requirement, the District may consider a financial institution's record and current level of financial commitment to its local community when deciding whether to deposit funds in the financial institution. The District may consider factors including:

1. For financial institutions subject to the federal Community Reinvestment Act of 1977, the current and historical ratings that the financial institution has received, to the extent that those ratings are publicly available, under the federal Community Reinvestment Act of 1977;
2. Any changes in ownership, management, policies, or practices of the financial institution that may affect the level of the financial institution's commitment to its community;
3. The financial impact that the withdrawal or denial of District deposits might have on the financial institution;
4. The financial impact to the District as a result of withdrawing public funds or refusing to deposit additional public funds in the financial institution; and
5. Any additional burden on the District's resources that might result from ceasing to maintain deposits of public funds at the financial institution under consideration.

Collateral Requirements

All amounts deposited or invested with financial institutions in excess of any insurance limit shall be collateralized by: (1) securities eligible for District investment or any other high-quality, interest-bearing security rated at least AA/Aa by one or more standard rating services to include Standard & Poor's, Moody's, or Fitch, (2) mortgages, (3) letters of credit issued by a Federal Home Loan Bank, or (4) loans covered by a State Guaranty under the Illinois Farm Development Act. The market value of the pledged securities shall equal or exceed the portion of the deposit requiring collateralization. The Chief Investment Officer shall determine other collateral requirements.

Safekeeping and Custody Arrangements

The preferred method for safekeeping is to have securities registered in the District's name and held by a third-party custodian. Safekeeping practices should qualify for the Governmental Accounting Standards Board (GASB) Statement No. 3 Deposits with Financial Institutions, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements, Category I, the highest recognized safekeeping procedures.

Controls and Report

The Chief Investment Officer shall establish a system of internal controls and written operational procedures to prevent losses arising from fraud, employee error, misrepresentation by third parties, or imprudent employee action.

The Chief Investment Officer shall provide a quarterly investment report to the Board. The report will: (1) assess whether the investment portfolio is meeting the District's investment objectives, (2) identify each security by class or type, book value, income earned, and market value, (3) identify those institutions providing investment services to the District, and (4) include any other relevant information. The investment portfolio's performance shall be measured by appropriate and creditable industry standards for the investment type.

The School Board will determine, after receiving the Superintendent or designee's recommendation, which fund is in most need of interest income and the Superintendent or designee shall execute a transfer, except when the use of interest income is restricted.

Ethics and Conflicts of Interest

The School Board and District officials will avoid any investment transaction or practice that in appearance or fact might impair public confidence. Board members are bound by the Board policy 2:100 Board Member Conflict of Interest. No District employee having influence on the District's investment decisions shall:

1. Have any interest, directly or indirectly, in any investments in which the District is authorized to invest.
2. Have any interest, directly or indirectly, in the sellers, sponsors, or managers of those investments.
3. Receive, in any manner, compensation of any kind from any investments in which the agency is authorized to invest.
