We are making some **BIG** changes!

By: Torben Massat

A big, *big* thank you to Mrs. Briski!

Last year, in an effort to brand the Student Center, I approached Mr. Everson. After he toyed with the idea for a couple of weeks, he realized that Mrs. Briski, who does digital arts, could help me design my logo better than he could. So, I waited for a few more weeks and received the final product near the end of the year. Mrs. Briski did a fantastic job designing a clear, and easy to read logo for the Student Center. This was a huge change, and more are coming.

A brand- new year, and a brand- new look

By: Torben Massat

A totally new and improved Student Center has emerged

After a long summer, spent stepping back and really looking at what could make the Student Center better, some things came to mind to improve the Student Center. One of the big changes that happened was the new logo, which was described in A Big, Big Thank You to Mrs. Briski. Another big change that happened this summer was the redesign of the newsletter. This new look was designed for the readers of the Student Center to read a simple, and clean newsletter. One of the most fundamental change was the phrase that drives the whole of the Student Center. The phrase, “summa ac vera notitia”, is Latin for "Total and True Information". This really means that all of the news and information the Student Center provides will be attempted to be complete, unbiased, and true.

So, now that you know what has changed, we hope that you will enjoy using the Student Center.

The Newest Addition

By: Torben Massat

Easy- access Google Site

A new way for students to access the Student Center is by Google Site. Located at <https://sites.google.com/students.sd308.org/studentcenter>, the Google Site is a refreshingly simple website to read and browse through. Unfortunately, the site is accessible only to people who are signed in through their SD308 email accounts.
