Re: FOIA Request dated March 26, 2019 and received March 26, 2019

Subject: Requesting the documents showing which school buildings in the district each have a storm shelter that meets the minimum requirements of the ICC/NSSA Standard for the Design and Construction of Storm Shelters (ICC-500), including the location of each shelter relative to its assigned school building. For those school buildings in Oswego Community Unit School District 308 that do not have a storm shelter that meets the minimum requirements described above, please provide me with documents showing how and where the children in each of those school buildings are to be sheltered in case of a tornado emergency including the location of each shelter relative to its assigned school building.

Dear Ms. Deloian:

This letter will serve as Oswego Community Unit School District 308's response to your March 26, 2019 request under the Freedom of Information Act (5 ILCS 140/1 et seq.), in which you asked for the above referenced information.

Oswego Community School District 308 does not have any actual storm shelters. Each building identifies a "safe" zone to shelter in place. The information responsive to your request is attached.

To promote district transparency and assist others who may have a similar question, this responsive document will be posted online on the district's website. To access it, go to www.sd308.org and select *Our District > Freedom of Information Act Request > FOIA Request Responses*, then select *FOIA ID #19-11*.

Please be advised that to comply with your FOIA request, the district incurred an expense that comprised of the cost of labor and resources used to search for records responsive to your request

Please let me know if you have additional questions. Thank you.
