Re: FOIA request dated 9/10/21

Subject: Please provide the scientific evidence that was provided to the Oswego 308 Board of Education that **was peer reviewed** to prove that:

1. Masks are effective for Covid 19, a virus that is an airborne ariosome, and NOT droplets.
2. That the mRNA vaccine is safe to mandate for our teachers.

I would also like any information that this school district has reviewed to ensure that you are taking a 360 degree view to ensure that you are doing the right thing for our children and this community.
